## Beschreibung

As the red wine of the line without sulphites we chose Teroldego: not only because it is the most important wine of the tradition of Trentino, but also for the characteristics of this variety, being it rich in anthocyanin, natural antioxidants. Thanks to its soft tannins it is perfect for a vinification and ripening only in steel, which enhances the fragrance of wild berries, strawberry and sour cherry, and a fresh and immediate drink.

WINE WITHOUT SULPHITES ADDED.
